ELDERBERRY IMMUNE TEA

This tea is like a treadmill, strength training and a little hot yoga for your immune system. Every once in a while, life can hand you a few lemons. We say when that happens, squeeze some into a cup of antioxidant-rich immune support! It's so tasty you'll forget it's a good-for-you beverage. Like fruit punch with benefits!

Sip daily or when you need a little extra defense.

Formulated for all the people, including during pregnancy, breastfeeding and even the most discerning kids. So pretty much for everyone and their mother™.

HERBAL TEA HOW-TO

Pour boiling water over one tea bag to make sure every bit of herbally goodness gets into your cup. Steep 5-10 minutes and sip 1-3 cups per day, or as recommended by your healthcare provider.

TEAM WORK MAKES THE DREAM WORK

Each herb in this tea was intentionally chosen because of how it works synergistically with the others in the formulation, amplifying their efficacy like a little symphony. It's like the colleagues who hang out together after work. They collaborate with each other which makes their job seamless.
