CLINICAL RESULTS

After 1 week

- 80% of participants showed significant improvement in the look of skin firmness.*

After 4 weeks

- a majority of participants showed significant improvement in overall appearance of skin radiance (69.2%) and texture/smoothness (59%).**

Based on a clinical instrument* and expert grading** evaluation of 39 female participants using SkinElixir oral supplement and a standardized moisturizer with SPF 15 used once daily. Results compared to baseline values.
