

AFP-Peptizyde from HOUSTON ENZYMES

ITEM NO. HN004-S90

AFP-Peptizyde (Advanced Formula Protease) may be helpful for the digestion of food proteins (including gluten, casein, and soy). AFP-Peptizyde is high in DPP IV (dipeptidyl peptidase IV) activity, which aids in the breakdown of casomorphin (from casein) and gluteomorphin (from gluten).† AFP-Peptizyde is papain-free and bromelain-free. AFP-Peptizyde was developed by Dr. Devin Houston, PhD enzyme biochemist.

SUGGESTED USE: One (1) capsule prior to meals. More capsules may be taken as desired. Capsules may be opened and contents mixed with food or beverage.

Do not use if tamper-proof seal is broken. Keep container closed and store at room temperature or in freezer, but do not place in refrigerator due to humid conditions.

† These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
