Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving	% Daily Value
Total Carbohydrate	<1 g	<1%†
Dietary Fiber	<1 g	<1%†

Garlic (*Allium sativum*) (bulb) (Supplying 4.8 mg [12000 mcg/g] ARP [allicin releasing potential])

400 mg

†Percent Daily Value based on a 2,000 calorie diet.

*Daily Value not established.

Other Ingredients: Cellulose, Croscarmellose Sodium, Stearic Acid, Silica, Magnesium Stearate and Enteric Coating.

Discussion: Allicin, an important phytochemical in garlic, is created by alliin (a sulfur-containing compound) reacting with allinase, an enzyme. Garlic's strong odor and nutritional benefit have been associated with the presence of allicin. GarliCare™ supplement is designed to provide a high allicin releasing potential (ARP) without the unpleasant odor normally associated with garlic.†
