Signature Supplements

CORTISOL REDUCE

Supports Decreased Stress levels*

CORTISOL REDUCE is a useful chemical hormone in small amounts but too much of this 'stress hormone' will increase the appetite and put on weight especially around the mid-section. This complex may support the calming of the adrenals and compliment the stress reducing effects of exercise to increase lean body mass and body fat reduction.*

DIRECTIONS: For adults, take two (2) capsules daily, more if needed.

As a reminder, discuss the supplements and medications you take with your health care providers.
