Fermented Korean Ginseng (*Panax ginseng*)
(root extract) (Guaranteed to contain 0.375 mg [0.25%] Ginsenosides)

*Daily Value not established.

Other Ingredients: Cellulose, Vegetable Cellulose Capsule and Gum Acacia.

Discussion: Korean or panax ginseng has a history of use in Chinese herbal medicine dating back over 5,000 years. The roots of this extract are harvested at the optimal time of 4-5 years after cultivation so that they reach peak maturation. The roots are then enzymatically fermented to mimic the fermentation that occurs in the intestinal tract. The end result is an extract designed to offer enhanced absorption and greater bioavailability.[†]
