

Doctor-formulated CountBoost™ is designed to be taken in conjunction with FertilAid® for Men to help improve sperm count.*

A sperm count below 20 million per ml is considered low and may negatively impact your ability to conceive. CountBoost™ was formulated on the basis of established scientific literature to help improve sperm count safely and naturally as part of a healthy lifestyle.

A comprehensive formula containing key antioxidants, vitamins and herbal ingredients are combined to help men diagnosed with low sperm count.* Ingredients such as CoQ10, Vitamin B, Glutathione and Maca have been shown in numerous studies to benefit count and other key sperm parameters.*

Recommended Use: As a dietary supplement, take 2 capsules daily in divided doses with meals.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
