† Daily Value not established

* Organic

Other ingredients: none.

INTESTINAL REJUVENATION FORMULA is an advanced formula for intestinal cleansing. The formula is designed to help cleanse, detoxify, and heal the entire GI tract. The ingredients in the formula have been carefully selected for their effectiveness, synergistic action, and capacity to facilitate healing. The product is most effective when used as part of a complete program for rejuvenation, health, and well-being.

DIRECTIONS: For long-term gentle rejuvenation of the intestinal tract take 1 teaspoon (about 1/3 scoop) several times daily away from food (by at least 30 minutes), or as directed by a health care professional. Add powder to about 8 ounces of water or dilute juice, mix or shake well, and drink immediately.

For a more rapid healing cleanse take 1 tablespoon (about 1 scoop) multiple times daily away from food (by at least 45 minutes). Add powder to about 16 ounces water or dilute juice, mix well, and drink immediately.

Individuals experiencing loose stools or diarrhea can take 1 (or more) tablespoons multiple times daily (5 times or more) and refrain from food. Add 16 ounces water per tablespoon formula, mix or shake well, and drink immediately. In between servings it may be helpful to take 10-20 billion organisms of a multiple strain lactic acid bacteria formula (place probiotic formula directly in mouth, chew, and then swallow).

Important: Consume sufficient liquids (e.g., water) when taking large amounts of the formula (or when initially taking it) because bowel transit time may otherwise be slowed.

INTESTINAL REJUVENATION FORMULA Does Not Contain: wheat, rye, oats, corn, barley, gluten, egg, dairy, sugar, yeast, preservatives, colorings, or artificial flavorings.
