

As a board-certified neurologist specializing in the diagnosis and treatment of headache I developed HeadacheFree®, a natural multivitamin containing all of the recommended daily vitamins along with the recommended amounts of riboflavin (B2) and magnesium for headache prevention. Since the development of HeadacheFree we have been frequently asked about an all natural as-needed formulation for the acute treatment of headache. We are proud to present Migrastat®, a combination of Willow Bark, a natural anti-inflammatory; Ginger root, a natural anti-emetic; and magnesium which may be deficient in headache sufferers and has been shown to be effective in the treatment of headache, especially when given intravenously. Together, these three natural substances can relieve both headache and associated nausea†.

Gary A. L'Europa, MD, FAHS
U.S. Board-certified in Neurology and Headache Management
Natural Acute Headache Relief

Immediate Headache Relief†

Migrastat®

Physician-formulated with Willow Bark, Magnesium, and Ginger Root to quickly and naturally stop headache†

24 TABLETS
Dietary Supplement

Why Migrastat®?

Migrastat uses all natural sources, Willow Bark, Ginger, and Magnesium, to combat headaches when they start. Migrastat is best used in conjunction with HeadacheFree, a natural preventative for headache.†

- Fast Acting†
- 100% Natural†
- Less side effects†
- Contains no known allergens†
- Developed by a board certified neurologist

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Migrastat is made using a blend of both food-based and natural ingredients, for maximum and immediate absorption.

- No starch, gluten, or soy
- No dairy or animal by-products
- No salt, sugar, or artificial flavoring/coloring
- No digestible plastic

This product contains no known allergens: Starch, Gluten, Soy, Dairy, Animal By-Products, Sugar, Artificial Flavoring, or Digestible Plastics.

Warning: People with an aspirin allergy or sensitivity should not take Willow Bark. Taking Willow Bark along with aspirin might increase the effects and side effects of aspirin. Willow Bark might slow blood clotting. Taking Willow Bark along with medications that also slow clotting might increase the chances of bruising and bleeding. Medications that slow blood clotting (Anticoagulant / Antiplatelet drugs) interacts with Willow Bark.
