

100% Vegan Hyaluronic Acid

Fluid HA™ makes taking hyaluronic acid more convenient than ever.

Hyaluronic acid (HA) is an essential component of synovial fluid which has the primary role of providing fluid mobility to the joints. In fact, HA plays a crucial role in all of the body's tissues and fluids, providing vital lubrication and shock absorption. HA is also part of the skin's extracellular matrix where it is responsible for the skin's moisture, suppleness, and elasticity.*

Suggested Use: As a dietary supplement, take 1/2 teaspoon twice daily, preferably 20 minutes before a meal or as directed by your health practitioner.

Store in a cool, dry place with lid tightly closed. Keep out of the reach of children. **Note:** Consult your healthcare provider if you are pregnant or lactating, have a serious medical condition or are taking prescription medication.
