

FiveLac[™]

Probiotic

DIETARY SUPPLEMENT

SUGGESTED USE: Adults and children take one to two packets a day to start. Empty the packet contents into your mouth and follow with a few ounces of water, or add powder to a few ounces of water and drink. If additional support is desired, you may build gradually to a higher number of packets. Amount needed may vary from person to person. Packets may be taken any time of day, with or without meals.

WARNING: KEEP OUT OF REACH OF CHILDREN. Do not use if packet is torn or damaged. Do not take while taking antibiotics. Pregnant or nursing mothers, if under medical care, or if you have a suppressed immune system, consult your health practitioner prior to use.

Store in a cool, dry location. Once packets are opened they should be used immediately.

Targeted Benefits of FiveLac

- Promote a healthy immune system
- Control occasional digestive upsets
- Improve your overall digestive health
- Maintain intestinal flora essential for efficient digestion and assimilation of nutrients

Not all probiotics are created equal

The word probiotic means "for life" and FiveLac is LIFE in a stick pack.

What sets FiveLac apart from other probiotics is the technology used to keep the friendly bacteria alive. FiveLac gets LIVE bacteria safely past the acids in the stomach and into your intestinal tract where it does its work.

You CAN affect and improve your immune system's defenses. Here's why FiveLac is your natural choice – above the rest.

Selection of Strains

The strains of friendly bacteria in FiveLac were specifically chosen for their unique ability to survive the gastric juices in your stomach and remain alive once they reach your digestive tract.

Eliminating Moisture

The secret to FiveLac's stable shelf life is our specialized manufacturing process which prevents moisture from reaching the product during production, and the packaging is designed to keep the moisture out.

Controlled Manufacturing Process

Our probiotics are formulated under strict laboratory conditions and manufactured in a sterile and controlled environment assuring the highest purity and quality.

Complementary Ingredients

Refined dry yeast powder and fructo-oligosaccharides (FOS) are both included in FiveLac to help feed the friendly bacteria in the stick pack as well as help feed them once they reach your intestinal tract.
