Distributed: IFS 4346 Belgium Blvd, Kansas City, MO 64150-1704

MADE IN ISRAEL

Prostate health and management is of significant importance, as the prostate causes inconvenient urinary frequency that affects approximately 50% of the male population above the age of 50 and over 75% of the male population above the age of 70. This represents a significant number of men who are impacted by inconvenient urinary issues for a major period in their life.

Brizo™ is a novel soy extract that revolutionizes prostate health*
