

SUGGESTED USAGE: As a dietary supplement, take 1 softgel 1 to 3 times daily with food, or as directed by your healthcare practitioner.

HOW IT WORKS: Extracts from the gum resin of *Boswellia serrata* have been valued by Ayurvedic herbalists for centuries. Modern scientists have since discovered that Boswellia and some of its constituents, including Boswellic Acids, can affect signaling cascades that mediate critical immune system functions.* Through these pathways, Boswellia may support balanced immune system responses to typical everyday challenges, thus helping to naturally maintain normal, healthy tissues.*

CAUTIONS/INTERACTIONS: May cause minor, transient GI discomfort. Boswellia may interact with anti-inflammatory agents and asthma medications. Consult physician if pregnant/nursing, taking medication, have a medical condition, or if planning any surgical procedures before using this product.
