

Advanced Blueberry Complex and Nature-Identical 99% Pure trans-Pterostilbene

SCIENCE CORNER

pTeroBlue™ Pterostilbene-Blueberry Complex 100 mg provides pterostilbene, an analog of the compound resveratrol. Structural differences give pterostilbene powerful key advantages over resveratrol. AuroraBlue® is a unique blend of wild Alaska blueberry species, naturally supplying additional pterostilbene.

pTeroBlue™ Pterostilbene-Blueberry Complex 100 mg provides pTeroPure®, a sustainable, nature-identical 99% pure trans-Pterostilbene, combined with AuroraBlue® wild Alaska Blueberry Complex for optimum benefits.*
