

PRODUCT BENEFITS: Scientific studies indicate that Glucosamine promotes the production of proteoglycans and supports lubrication of articular cartilage.* As a natural component of cartilage, Glucosamine nourishes joints for comfortable movement.* The Glucosamine in this product is stabilized with KCl rather than NaCl to avoid added sodium intake.

Directions: For adults, take one (1) capsule two times daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
