

PRODUCT BENEFITS: As the body's premier lipid-soluble antioxidant, Vitamin E functions to stabilize cell membranes, maintain a healthy cardiovascular system, and promote prostate health.* While Alpha Tocopherol exhibits the greatest Vitamin E activity, Gamma Tocopherol possesses distinguishing qualities that provide further health benefits.* This unique formula delivers high Gamma Tocopherol content, as well as a blend of other Tocopherols and Tocotrienols, for a more extensive range of antioxidant activity.*

Directions: For adults, take two (2) softgels daily, preferably with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
