

PRODUCT BENEFITS: Coenzyme Q-10 is essential for energy production at the cellular level.* In addition, Co Q-10 is a powerful antioxidant that supports healthy cardiovascular function.* Coenzyme Q-10 also helps recycle Vitamin E in the body.*

PhysioLogics' Hydrosoluble Coenzyme Q-10 is an advanced soluble form of Coenzyme Q-10. The Bio-Solv® process takes Coenzyme Q-10 to its optimal level by processing it to dissolve rapidly.

Statin medications can reduce Co Q-10 levels in the body. Co Q-10 can replenish what Statin medications may deplete. Note: Co Q-10 is not intended to serve as a replacement for Statin therapy, nor should you discontinue taking any prescribed medications while supplementing with Co Q-10.

Directions: For adults, take one (1) softgel up to three times daily with meals or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.

WARNING: If you are pregnant, nursing, taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
