

PRODUCT BENEFITS: Magnesium is an essential ubiquitous cation that plays a fundamental role in more than 300 enzymatic reactions.* As a cofactor of adenosine triphosphatases, Magnesium ions play a fundamental role in the synthesis, transfer, storage and utilization of energy-rich compounds.* Necessary for maintaining proper bone mineralization, Magnesium aids in the absorption of Calcium by stimulating the secretion of calcitonin, a hormone that aids in the influx of calcium into bone.*

Directions: For adults, take three (3) tablets daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
