*Percent Daily Values are based on a 2,000 calorie diet.

**Daily Value not established.

Other Ingredients: Dextrose monohydrate, citric acid, natural and artificial orange flavors, acesulfame potassium, sucralose, FD&C Yellow #6.

Creatine is a naturally occurring nitrogenous organic acid found in vertebrates and helps to supply energy to muscle. Creatine is produced naturally in the body primarily in the kidneys and liver from the amino acids L-arginine, glycine, and L-methionine and then transported in the blood stream for use by muscles. It promotes healthy energy levels, may improve cognitive ability and may boost strength and endurance.†

SUGGESTED USE: Blend one scoop of CREATINE MONOHYDRATE with 6-8 oz. (180-236ml) of water, juice, or other favorite beverage.

WARNING

If you are pregnant, nursing, have any health condition or are taking any medications, consult your health care practitioner before using this product. **KEEP OUT OF REACH OF CHILDREN.** Store in a cool, dry place. Do not use this product if the safety seal on the bottle is broken.
