WHO WE ARE In 1983, Animal was founded with the birth of Animal Pak, the venerable training "pack" that started it all. Born from the real needs and desires of professional bodybuilders, Animal has grown prodigiously over the decades. Today, as yesterday, the name Animal stands for trust, integrity and a unique no nonsense approach to the game. Animal also represents a group of products that have stood the test of time, proven again and again in the labs, and in the trenches where it counts most... The gym and the stage. Dedicated to serious nutrition for the serious athlete, Animal is your choice when it comes to complete and comprehensive supplementation. Animal. The choice of champions. **WHAT ANIMAL PM® IS** R&R. Yeah, that's the name of the game. You're only as good as how fast and how efficiently you can recover. Some days you merely stimulate, others you totally annihilate. Either way progress will be dictated by the quality of the recovery time spent in between your brutal workouts. Sleep and proper nutrient intake during this critical time are absolutely necessary in order to reach your mass goals. To make sure everything is on the up and up, there's Animal PM. In the gym, the iron will leave you sore and battered, bruised and weary. When you're out, Animal PM will help turn this down time into growth time. So if you're looking to reinforce every line of defense possible, if you want to grow while you're stacking your Zs, get some powerful shuleye with Animal PM.
