DOSAGE: Take a single pack every day for 21 straight days. On training days, take the pack with the last meal before you work out. On off days, just take the pack with any meal. Animal Test works best along intense training and an increase in quality protein and calories. Make sure you stay hydrated on this cycle. Unlike other "cycled" Animal products, you can use Animal Test for two consecutive cycles—without an "off" week—for a total of 42 straight days. After this double cycle, take a full 4 weeks off. During this period, we recommend using Animal M-Stack to help preserve your lean mass gains. For additional Animal "stacking" suggestions check out www.animalpak.com.

PRODUCT NOTES: Animal Test is best suited for those who are at least 21 years old. Each pack provides a total of 4000mg of potent actives.
