

A High-Protein Nutritional Source For Athletes.

For nearly twenty years, more champion bodybuilders and athletes have used Uni-Liver™ than any other brand. Why? Uni-Liver™ is perhaps the most nutritionally-dense amino acid formula in the world. Each 30 grain Uni-Liver™ tablet starts with 1950mg of the highest quality glandular substance derived exclusively from prized, grass-fed (hormone-free) Argentine beef. The liver is then freed of all fat, water, connective tissue and then quickly flash frozen to -18°C. Because of this processing, Uni-Liver™ retains the biochemical spirit of the original source and contains a full spectrum of amino acids and other necessary nutrients including vitamins A, C, D, E, K; the entire family of B vitamins; copper, zinc, chromium, selenium, cobalt, molybdenum, magnesium, manganese, potassium, phosphorous, calcium, and more. Most importantly, Uni-Liver™ is a rich source of heme iron, the most bioavailable form of iron available anywhere. For your confidence, our product is certified 100% BSE-free.*

Recommended Use: As a dietary supplement, take 2-4 tablets with each meal. Daily intake can be increased to 6 tablets per each meal during periods of intense training and competition.

100% GUARANTEE: If not completely satisfied, return remainder of product and receipt to place of purchase within 30 days for an immediate refund or exchange.
