PROBIOTIC PACKS

Natural Fruit Flavor Dietary Supplement

66 billion CFU†

Probiotic Packs brings you 11 different "good" strains of bacteria, plus the well known Kyo-Dophilus® blend, so your GI tract receives multiple varieties of helpful organisms in one concentrated dose.**

Daily probiotic use helps give your GI tract and immune system that extra "edge" to keep not-so-beneficial flora from disrupting the delicate balance of "good" bacteria in your gut.**

You'll naturally feel better** -- and be able to do more of the things you want to do... at home, at work, on vacation, anywhere and everywhere you go.

Every pre-measured package of **Probiotic Packs** provides 11 strains of probiotics including:

- ★ **Bifidobacterium lactis:** a friendly bacteria often found in yogurt that is known to help support immune responses.**
- ★ **Lactobacillus acidophilus:** promotes the health of your entire digestive tract.**
- ★ **Bifidobacterium longum:** keeps your digestive system running smoothly, and helps enhance your immune system.**

And to ensure the multiple strains of good bacteria thrive, I've added NutraFlora® short chain FOS for their growth and survival.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

OTHER INGREDIENTS: Maltodextrin, Natural Lemon Flavor, Citric Acid, Natural Raspberry Flavor, Silica (flow agent), Natural Strawberry Flavor and Stevia.
