Cardio Health Program

May reduce the risk of heart disease*

DIETARY SUPPLEMENT

- Lowers LDL (bad) cholesterol*
- Blocks absorption of cholesterol from food*
- Maintains normal, healthy blood pressure levels*
- Supports blood vessel function*

30 PACKS

HEART

Preventive Nutrition® Cardio Health Program

Preventive Nutrition® Cardio Health Program features clinically studied ingredients that support heart health and may reduce the risk of heart disease.* These ingredients have been found to reduce cholesterol levels, maintain healthy blood pressure and support blood vessel function.* Cardio Health Program is packaged in convenient, easy-to-take packs.

CardioAid™ Phytosterols

Phytosterols are natural compounds that are found in fruits, vegetables and whole grains that help block cholesterol absorption.* *Scientific research shows that 400 mg per serving of free phytosterols taken twice a day with meals for a daily total intake of at least 800 mg, as part of a diet low in saturated fat and cholesterol may reduce the risk of heart disease. Each daily serving of Preventive Nutrition® Cardio Health Program supplies 1600 mg of CardioAid™ phytosterols.

MegaNatural®-BP™

Clinically shown to help maintain normal, healthy blood pressure levels already within the normal range, MegaNatural®-BP™ is a superior form of grape seed extract that contains compounds to support a healthy heart.*

Omega-3 Fatty Acids

Fish oils naturally provide the heart-healthy omega-3 fatty acids EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid). One capsule features a total of 900 mg of omega-3 fatty acids; 647 mg of EPA and 253 mg of DHA. Omega-3 fatty acids are necessary for heart health as they support normal, healthy cholesterol levels and aid in the maintenance of normal blood pressure.* Individually, EPA is important for circulatory system health, and DHA provides support for healthy triglyceride levels.* Consumption of omega-3 fatty acids may reduce the risk of coronary heart disease. FDA evaluated the data and determined that, although there is scientific evidence supporting the claim, the evidence is not conclusive. This high potency fish oil is enteric coated which allows the softgel capsule to break down and absorb in the small intestines to control or reduce fishy burps.

GNC Triple Strength Fish Oil has been manufactured for freshness. We use only the best quality ingredients derived from wild, deep ocean fish.

Coenzyme Q-10

CoQ-10 helps support heart and blood vessel function.* It is an antioxidant that is an essential component of your heart's energy producing system. Age can reduce the amount of CoQ-10 in the body.
