Collagen+C™
TYPE 1&3

radiant skin • thicker hair
*stronger nails • healthier joints**

dietary supplement

Collagen is a complex structural protein that maintains strength and flexibility throughout the body. Super Collagen+C™ is made up of the collagen peptides Type 1&3 which support collagen in skin, hair, nails, muscles, tendons, ligaments and bones. Super Collagen+C™ is enzymatically hydrolyzed, providing an amino acid ratio with a low molecular weight for maximum bioavailability and utilization by the body. When Super Collagen™ is taken internally, the body receives the raw materials it needs to supplement the collagen found in all of these areas and may act as a messenger to trigger the synthesis of new collagen fibers. Vitamin C is added to provide optimum supplementation of your dietary collagen needs.*

SUGGESTED USE: As a dietary supplement, take three (3) tablets twice daily preferably on an empty stomach for maximum absorption and wait 30 minutes before eating. Enjoy enhanced results when paired with NeoCell's Hyaluronic Acid products.
