

What can SUPERFLEX-3 do for you?

SUPERFLEX-3 combines the best of science and nature to support healthy joint function in active adults.

- 1) **GLUCOSAMINE** helps maintain healthy cartilage levels†
- 2) **CHONDROITIN** is essential for joint fluid which helps supports cartilage†
- 3) **MSM** helps support the development of new cells and connective tissue†

Warning:

Consult a physician before using if pregnant, nursing or on medication. Store in a cool, dry place away from children. Do not purchase if seal is broken. Do not exceed the stated daily intake.

ARTHROROLACTIN® contains a natural micro-protein called MicroLactin™ that is derived from milk proteins. It has been found to provide faster, more effective levels of joint health and function. MicroLactin™ increases blood vessel tightness, thereby limiting the amount of escaping white blood cells which can increase inflammation. In a study published in the journal Current Therapeutic Research, MicroLactin™ was shown to be effective in reducing joint stiffness, pain and immobility. Another study published in the same journal found that MicroLactin™ supplementation resulted in a 60% greater improvement when compared to glucosamine alone for overall joint function improvement.†
