FISH OIL

DIABETIC

**Preventive Nutrition® Diabetic Nutrition Plan**

The Preventive Nutrition® Diabetic Nutrition Plan is a scientifically designed plan for the special dietary needs of people with diabetes. A healthy diet is essential for people with diabetes. This convenient pack contains nutrients that address some of the primary health concerns of people with diabetes: blood glucose support, eye health and cardiovascular health.

**Glucose Support Blend**

Features fenugreek seed powder, cinnamon and chromium, an important mineral that forms a part of the glucose tolerance factor which is needed for normal glucose control.\*

**Fish Oil with Phytosterols**

Fish oils naturally provide the heart-healthy omega-3 fatty acids EPA and DHA. Individually, EPA is important for circulatory system health and DHA provides support for healthy triglyceride levels.\* Phytosterols are natural compounds found in fruits, vegetables and whole grains which help block cholesterol absorption.\*

**Lutein**

Provides lutein to support eye health.\* Lutein is an important carotenoid present in the central area of the retina.

**alpha-Lipoic Acid**

Contains alpha-lipoic acid for antioxidant support.\* Alpha-lipoic acid is a fatty acid that plays a role in antioxidant regeneration, such as recycling vitamins C and E in the body.\*

Preventive Nutrition® Diabetic Nutrition Plan offers nutritional support for the special dietary needs of people with diabetes. Use in conjunction with a nutritionally balanced diet suitable for persons with diabetes to help maintain healthy blood sugar levels and improve circulatory and eye health.
