Amino Acids form the chief structure of proteins; many of these are essential for human growth, development and nutrition. Simply put, they are the building blocks of the body. They contain nitrogen, which is not contained in fatty acids and sugars. Protein is vital to every living organism, from the smallest to the largest; all of these organisms are comprised of protein. In addition, protein is necessary to many chemical processes that sustain life.

Suggested Use: Take 1 capsule three times daily between meals.

PHENYLKETONURICS: CONTAINS PHENYLALANINE

ISOTROPIN[®] HGH-R was carefully designed to provide safe and effective means of naturally elevating one's HGH and IGF-1 levels. ISOTROPIN[®] HGH-R provides precursor nutrients to help boost the body's natural HGH levels - a key to supporting the anti-aging process. Human Growth Hormone (HGH) helps restore skin thickness, elasticity, smoothing out wrinkles and rejuvenating hair and nails. It promotes the burning of fat by making it available to the body as fuel while increasing muscle mass.*
