CODE 0702 V4

SUGGESTED USAGE: As a dietary supplement, take 1 tablet daily with a meal.

Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

Vitamin C is a water soluble nutrient well known for its vital role in the immune system. It is also a highly effective antioxidant that can protect the body's cells and molecules from damage by free radicals and reactive oxygen molecules generated during normal metabolism and exposure to environmental stressors. This product supplies a sustained release Calcium Ascorbate, a buffered form of Vitamin C that is bioavailable and non-acidic. It is also enhanced with Bioflavonoids, which work synergistically with Vitamin C.*
