

SafSlim™

Reducing belly fat just got easier!

A revolutionary breakthrough in targeted belly fat science. **SafSlim™**, powered by SAFActive78™, is the first-ever solution to target unsightly and health-threatening OMENTUM fat, the fat that accumulates around the belly region.*

This patent-pending formula features a proprietary blend of non-GMO, expeller pressed, high-linoleic safflower oil. In a major university study on obese, diabetic women, the active ingredient in **SafSlim** significantly reduced belly fat – 6.3% on average – in just 16 weeks.*

This “belly fat omega” has been shown to activate hormones, such as adiponectin, to help mobilize stubborn dormant mid-section fat, curb appetite and improve insulin sensitivity.*

Emulsified and “body-ready” for maximum absorption, **SafSlim** is the easiest and most effective way to transform your belly and ab flab... naturally.*

SUGGESTED USE: Take 1 tbsp twice daily before meals. Delicious by the spoonful or mixed into beverages, shakes or yogurt. Shake well. Refrigerate after opening. For best results, take for a minimum of 16 weeks and use in conjunction with regular exercise and a diet free of high-glycemic refined carbohydrates and trans fats.

100% satisfaction guaranteed.
