†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CELEXIL® contains a proprietary blend formulated to help fight depression and anxiety.†

The primary ingredient in CELEXIL®, hyperforin, is an effective treatment for depression. Clinical research shows that hyperforin, the key active phytochemical in St. John's Wort, relieves depression and anxiety as effectively as many prescription medications, but often with fewer side effects.†

5-hydroxytryptophan, or 5-HTP, appears to increase the brain's serotonin levels, positively influencing such disorders as depression that have been linked to low levels of this brain neurotransmitter.†

Suggested Use: The daily dose of Celexil® is 1-4 capsules. The recommended starting dose is two capsules, which can be increased to three or four capsules after two weeks.
