HONEY

### Safe + Effective

As a pediatrician and a father, Dr. Zak Zarbock found it frustrating when he wasn't able to offer any relief to his young patients with a cough. So, he set out to create a safe, effective and natural remedy that he could feel good about recommending.

Dr. Zarbock's research led him to the amazing benefits of honey with its natural cough suppressing and immune boosting power.

Made with a unique blend of antioxidant-rich dark honeys, and fortified with Vitamin C and Zinc, Zarbee's® Nighttime Cough and Sleep Drink is a proven and safe solution to naturally soothe your child's cough.\*\*
