

DIETARY SUPPLEMENT

Suggested usage: 1 softgel per day or as directed by a health professional. Keep out of the reach of children.

Ubiquinol is the active form of CoQ10, which is produced by our cells and is significantly better absorbed, particularly as we age. Ubiquinol QH® Active CoQ10 offers the same broad-ranging benefits, but with enhanced absorption which yields higher concentrations of CoQ10 in the blood. PQQ, considered a novel cofactor with antioxidant and B vitamin-like activity, enhances the biosynthesis of nerve growth factor (NGF), a key protein involved in the growth and survival of neurons. PQQ and CoQ10 work together to promote antioxidant and mitochondrial health, providing multifunctional support for cardiovascular health and neuroprotection.* BioPQQ® is manufactured in Japan using a patented natural fermentation process.

Manufactured by Natural Factors to ensure safety and potency in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

Contains no artificial preservatives or sweeteners; no dairy, starch, sugar, wheat, gluten, yeast, soy, corn, egg, fish, shellfish, salt, tree nuts, or GMOs. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
