

PHOSPHO-PEAK™

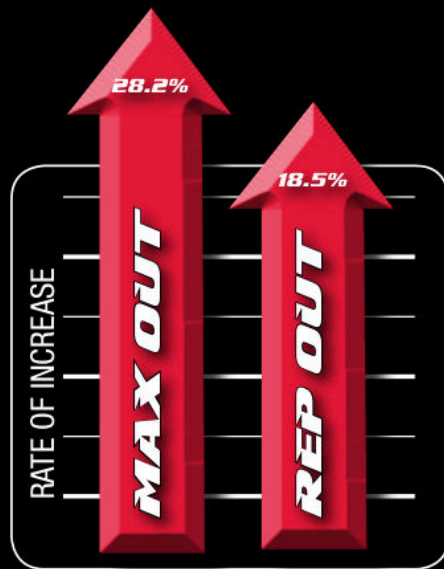

WHY YOU NEED PHOSPHO-PEAK™: To be a great athlete you need to be able to sustain high forces (strength) at high speeds. The combination (speed X strength) equals power. Muscles need energy to generate force. They get it by breaking down the food you eat and capturing the energy carried in its chemical structure in the form of adenosine triphosphate (ATP). As ATP is produced, something called H⁺ is produced alongside. H⁺ makes muscles weaker and slower. The harder your muscles work, the faster they generate H⁺. This results in serious "power leaks." PHOSPHO-PEAK helps your muscles seal power leaks at multiple levels. With patented and clinically-tested ingredients like Peak-ATP®, beta-alanine, Creapure® Creatine, electrolyte bound citrates and Krebs cycle intermediates, PHOSPHO-PEAK rapidly clears away H⁺ and other fatiguing-producing compounds the moment they form so that you can keep generating force without losing steam. Ingredients in PHOSPHO-PEAK can allow you to lift nearly 30% more weight and crank out nearly 20% more reps. That means you're generating higher forces at higher speeds; in other words, greater power. And when it comes to performance, power is what defines a great athlete.

Supplement Facts

Serving Size: 3 Tablets (3300 mg)		
Servings Per Container: 60		
Amount Per Serving		% Daily Value
Pantothenic Acid	5 mg	50%**
Magnesium	100 mg	25%**
(magnesium oxide, magnesium citrate, magnesium phosphate)		
Potassium	125 mg	4%**
(potassium chloride, potassium citrate, potassium phosphate)		
Sodium	100 mg	4%**
(sodium chloride, sodium phosphate, sodium citrate)		

*Percent Daily Values are based on a 2,000 calorie diet. Your diet values may be higher or lower depending on your calorie needs.
† Daily value not established.

PHOSPHO-PEAK #1 Rated Creatine/ATP Optimizer*

Ingredients:

MAX ATP-NO™:

Dual Fast Twitch/Slow Twitch Intramuscular ATP and Carnosine Precursor Buffering Complex (containing Beta-Alanine, Creapure® 99.99% Pure Micronized Creatine Monohydrate, PeakATP™ (Patented Adenosine Tri-Phosphate)).

Electrolyte W2-pH™:

Intracellular and Extracellular Fluid Balance and Acid Buffering Complex (containing Potassium (as Chloride, Citrate and Phosphate), Magnesium (as Oxide, Citrate and Phosphate), Sodium (as Chloride, Phosphate and Citrate)).

Kreb Energy™:

Kreb Cycle Intermediate Mitochondrial Energy Complex (containing Alpha-ketoglutaric Acid, Malic Acid, Fumaric Acid, Succinic Acid, Citric Acid, Pyruvic Acid and Pantothenic Acid).

ArmourCoat™:

pH Controlled Enteric Coated Delivery System (containing Magnesium stearate and methacrylic copolymer A).

Other Ingredients: silica and titanium dioxide

Directions:

Training Days: As a dietary supplement, take 3 tablets 45-60 minutes before training and 3 tablets immediately after training.

Non Training Days: As a dietary supplement, take 3 tablets twice a day on an empty stomach (2 1/2 hours after a meal or 45 minutes before a meal).

Keep out of reach of children.

Store at 15-30°C (59-86°F).

Protect from heat, light and moisture.

Do not purchase if seal is broken.
