

Our livers are constantly stressed from food toxins, drugs (over the counter and prescription), and environmental toxins. A less than optimally functioning liver has profound health ramifications for the entire body. **Liver Rescue™** contains therapeutic levels of the most powerful liver herbs known. Supports both Phase I and Phase II liver detoxification.* Provides powerful direct antioxidants (4,100 ORAC TE/g), plus it increases the liver's ability to naturally produce the even more powerful metabolic antioxidant enzymes superoxide dismutase (S.O.D.) and glutathione peroxidase. Liver Rescue™ nutritionally supports liver function and regeneration, liver detoxification, and bile flow.* **SUGGESTED USE:** 2 VeganCaps™ (or as advised by a health care professional) is suggested. **INTENSIVE USE:** 6-12 VeganCaps™ per day.

SUGGESTED ADJUNCTS: An organic, low or healthy fat, whole/unprocessed food, Vegan diet with emphasis on high-water-content raw foods; HealthForce foundational nutritional products such as **Vitamineral Green™** and **Vitamineral Earth™**, exercise — both aerobic (try rebounding) and strength exercises, and a positive attitude!
