Made in the USA

SUGGESTED USAGE: As a dietary supplement, take 1 softgel 1 to 3 times daily with food. Consider taking these other NOW® products: GLISODIN® and Alpha Lipolic Acid.

Astaxanthin is a naturally occurring carotenoid with a unique structure that is known to be a potent free radical scavenger. Because Astaxanthin freely crosses the blood-brain and blood-retina barriers, it can neutralize free radicals in the eye and central nervous system. Scientific studies also demonstrate that Astaxanthin can support the body's healthy and balanced immune system responses. This NOW product features Zanthin®, which has been patented for its ability to support overall ocular health and to promote a healthy nervous system.*

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.

Do Not Eat Freshness Packet. Keep in Bottle.

Astaxanthin
