NOW® Vegetarian Flex Mobility™ Liquid is a vegetarian joint support formula featuring FlavanFlex™, a patented herbal extract that has been scientifically shown to balance the activity of key enzymes involved in the body's response to an active lifestyle. Flex Mobility™ also has GreenGrown®, a vegetarian non-shellfish, non-animal derived Glucosamine. Glucosamine is an important substrate for the formation of the main components of cartilage tissue. In addition, MSM is included as a natural source of sulfur, which is a mineral necessary for the production of proteoglycans. MSM, Manganese, Vitamin C, and complementary herbal extracts work with Glucosamine to deliver optimal nutritional support for healthy joint function and comfort.*
