

L-Citrulline

SUPPORTS PROTEIN METABOLISM

Pure Powder

- **Healthy Immune System Function***

Net Wt. 4 oz. (113 g)

A Dietary Supplement
Vegetarian/Vegan

SUGGESTED USAGE: As a dietary supplement, take one or two 1/4 level teaspoons 1 to 2 times daily between meals. Citrulline is a non-essential amino acid that is an important intermediate in the urea cycle, functioning along with Arginine and Ornithine to rid the body of ammonia, a byproduct of protein metabolism. Because Citrulline is a precursor of Arginine, it provides a readily available source material for Arginine production, thereby helping the body maintain healthy Arginine levels. Citrulline also plays an important role in the healing process and in the maintenance of a healthy immune system.*
