Elite Recoup is an advanced blend of the 3 Branch Chain Amino Acids, L-Leucine, L-Valine and L-Isoleucine. **Each serving provides a full 7.2 grams** of these essential amino acids that play such an important role in recovery after a period of stress such as an intense workout. These **pharmaceutical-grade BCAAs** are supplemented with **pure Free Form L-Glutamine and Citrulline Malate**. In addition a **full complement of the B vitamins** have been added. These include Thiamin (B1), Riboflavin (B2), Niacin (B3), Pantothenic Acid (B5), Pyridoxine (B6) and Cyanocobalamin (B12).^x

Elite Recoup is designed to help you **speed recovery** and **reduce muscle breakdown**. In addition, Elite Recoup is designed to help **enhance cell volumization**, promote vasodilation which may lead to better protein absorption and aid in immune and digestive health.^x

DIRECTIONS: Mix 1 heaping scoop (11.5 grams) with 6-10 ounces of water. Because of the natural resistance of BCAA amino acids to go into liquid solution some settling on both the top and bottom may be noticeable.

For Maximum Results, Consume the Following:^x

Pre-Workout: <150 pounds = 2 heaping scoops
(complete consumption during workout) 150-200 pounds = 3 heaping scoops
200+ pounds = 4 heaping scoops

Post-Workout: 2 heaping scoops immediately after workout
