PATENT PROTECTED

Grey Defence® does not work for all greying types and may not produce the results you desire; before purchasing please review our website FAQ to understand the product's limitations. By purchasing this product you agree to be bound by our refund policy in effect at the time of purchase for all damages including but not limited to direct, consequential, special, incidental and indirect damages, where such limitations are allowable by law.

NEW

The body's anti-oxidative defensive network includes antioxidant enzymes Catalase and Glutathione Peroxidase that efficiently neutralizes hydrogen peroxide when we are young. **Grey Defence®** was formulated to re-energize this natural grey hair defence system.[†]

Recommended Use: As a vitamin/mineral supplement to help fight against greying due to hydrogen peroxide bleaching. For adults who started greying after age 30 and who have been greying for less than 7 years (e.g., 52 year old who started greying at age 45). Take 1 capsule in the morning on empty stomach. Wait 45 minutes before consuming solid meal. Recommended for continuous usage of at least 6 to 18 months.

CAUTION Do not exceed recommended dose. Pregnant or nursing mothers, children under 18 and individuals with a known medical condition should consult a physician before using this or any dietary supplement.

Keep out of reach of children.
Do not use if the safety seal is damaged or missing. Store in a cool dry place.

Do not take with multivitamins containing more than 200mcg Selenium daily dosage. If you have an auto-immune disorder, consult a health care practitioner prior to use. Hypersensitivity/allergy has been known to occur; in which case, discontinue use. For prolonged use, consult a health care practitioner. Some people may experience an increase in appetite.

[†] **DISCLAIMER:** By law the Food and Drug Administration does not pre-approve dietary supplements; therefore the preceding statements have not been evaluated by the FDA.

This product was manufactured in a GMP facility.
