7-Keto-DHEA is a natural metabolite of Dehydroepiandrosterone (DHEA). 7-Keto-DHEA is involved in many biological functions including cellular production of heat (thermogenesis). DHEA production and 7-Keto-DHEA, as well as metabolic rate, are known to naturally decrease with age. In clinical studies, 7-KETO®, a proprietary ingredient, is able to assist in the maintenance of a healthy body weight along with a proper diet and exercise regimen.*
