What are Probiotics?

Probiotics work to keep a healthy balance of intestinal flora. They reduce the amount of harmful bacteria by replenishing and maintaining the "friendly" bacteria.* The depletion of beneficial bacteria can occur as a result of poor diet, taking certain antibiotics, stress, food poisoning, travelers' diarrhea or poor overall digestive health.

What is GNC Ultra Probiotic Complex 25 plus Immune?

Each capsule combines 25 billion active cultures with elderberry and echinacea for additional immune support.* Ultra Probiotic Complex 25 plus Immune has been tested to ensure the full 25 billion cultures are live and active when used by the expiration date.

Why take GNC Ultra Probiotic Complex 25 plus Immune?

With the first dose, the clinically studied probiotics in this formula improve the balance of beneficial flora in the digestive tract. This helps to reduce bloating and stomach discomfort, aids in improving regularity, and supports a healthy immune system.*
