

100% PREMIUM MICELLAR CASEIN

MRM's 100% Micellar Casein is a slow digesting, complete protein, with an exceptional amino acid profile. The unique feature of micellar casein's Sustained Amino Acid Release and Anti-Catabolic action is due to its pH sensitivity, allowing it to aggregate in the low pH environment of the stomach. As a result, micellar casein digests over time providing a steady, continuous release of amino acids. The prolonged release effectively halts catabolism and provides muscles with a sustainable pool of amino acids to prevent muscle breakdown and promote lean muscle maintenance and growth.**

With any high protein diet, our bodies can have difficulty digesting the protein, which can result in gas or bloating. NitroZyme™ is an enzyme blend containing bioactive peptidases which aid in the breakdown of proteins into smaller more absorbable peptides. NitroZyme™ helps the body release more amino acids from the ingested protein than our digestive system can alone.** Therefore MRM's 100% Micellar Casein with NitroZyme™ allows the body to absorb more amino acids that can be shuttled directly into the muscle tissue, which promotes and protects strong, lean muscle.**

This satisfying drink is most beneficial for nighttime use, between meals or anytime the body goes hours without protein.

- 24g of 100% Premium, Anti-Catabolic Micellar Casein!
- Promotes Strong, Lean Muscle!**
- With 10g of BCAA's and Glutamine Precursors!
- With Enzymes for Optimal Absorption and Utilization!**
- Mixes Instantly and Tastes Great!

Ingredients: Micellar Casein (milk), Natural and Artificial Flavors, Salt, Soy Lecithin, Carrageenan, Silicon Dioxide, Sucralose, Xanthan Gum and NITROZYME™ (an enzyme blend with bioactive peptidases).

Contains milk and soy.

Contains NO egg, peanut, tree nut, fish, shellfish, wheat, gluten or yeast.

Formulated by & Manufactured for:
MRM
2665 Vista Pacific Dr.
Oceanside, CA 92056 USA
www.mrm-usa.com • 1-800-948-6296

Directions: Add one scoop to 8 oz of water or milk and mix. For optimal use prior to bed or in between meals to support nitrogen retention.

Typical Amino Acid Profile Per 32g Scoop

Alanine	1038mg
Arginine	703mg
Aspartic Acid	2336mg
Cysteine	472mg
Glutamic Acid	4275mg
Glycine	405mg
Histidine	405mg
Isoleucine	1420mg
Leucine	2980mg
Lysine	2040mg
Methionine	482mg
Phenylalanine	727mg
Proline	1605mg
Serine	1360mg
Threonine	1417mg
Tryptophan	368mg
Tyrosine	642mg
Valine	1325mg

• Sustained Release Protein!

• High in BCAA's!

• Zero Added Sugars!

• Tastes Great!
