

MRM's High Potency Conjugated Linoleic Acid (**CLA**) contains 1000mg of active **CLA** per softgel. **CLA** is a naturally occurring healthy ingredient in meat and dairy products, but it's difficult to get an effective amount of active CLA isomers through diet alone. Since its discovery in 1978, **CLA**'s health benefits have been well documented. Make **CLA** part of your healthy lifestyle of regular exercise and a balanced diet.
