

SUBSTANTIATED EFFECTS

ConDense® is the first and only preworkout to achieve exercise capacity expansion (endurance), rather than merely acute performance, as it relates to physiological enhancement. Using novel and proprietary vasodilatory nutrient-technology, your blood vessels will widen causing a cascade of anabolic and performance-sustaining effects through enhanced oxygen and nutrient delivery to the myocapillaries.[†]

ConDense® usage: Mix 1 serving with 8 ounces of cold water and consume 10 minutes prior to intense exercise. ConDense® can be used on nontraining days as well. Do not consume more than two servings at any one time. Do not use more than twice daily.

WARNING: ConDense® is intended only for healthy adults over the age of 18. Do not use if you are currently pregnant or nursing, could be pregnant, or are attempting to become pregnant. Consult a licensed healthcare practitioner before using this product. Do not use this product if you have been diagnosed with or have a family history of (including, but not limited to): heart disease, thyroid disease, liver disease, diabetes, hypoglycemia, hypo/hypertension, asthma, Barrett's Esophagus, gastroesophageal reflux, any psychiatric condition including depression or seizure disorder, or if you are using any prescription drug, or over-the-counter drug, in particular those intended to treat erectile dysfunction or blood pressure disorders. Discontinue use and contact a doctor immediately if you experience an irregular or rapid heart beat, chest pain, shortness of breath, dizziness, lightheadedness, fainting or presyncope, tremors, headache, nausea, or other similar symptoms. If you are a performance athlete, please check with your sanctioning body prior to use to ensure compliance.

NUTRITIONAL INFO

Supplement Facts	
Serving Size: 1 scoop (6.3g) Servings Per Container: 40	
Amount Per Serving	% DV
Chloride	48mg <2%
Sodium	130mg 6%
Potassium	52mg <2%
ATP-Sustaining, Lactate-Buffering, Blood-Oxygenating Mitochondrial Efficiency Complex	
Betaine Anhydrous (2.5g), Beta Alanine (2g), Nitratene™ (high molecular-yield nitrate form) (480mg), Caffeine (200mg)	
Percent Daily Values based on a 2,000 calorie diet *Daily Value (DV) Not Established	

Supplement Facts	
Serving Size: 2 scoops (12.6g) Servings Per Container: 20	
Amount Per Serving	% DV
Chloride	96mg 2%
Sodium	260mg 10%
Potassium	104mg 2%
ATP-Sustaining, Lactate-Buffering, Blood-Oxygenating Mitochondrial Efficiency Complex	
Betaine Anhydrous (5g), Beta Alanine (4g), Nitratene™ (high molecular-yield nitrate form) (960mg), Caffeine (400mg)	
Percent Daily Values based on a 2,000 calorie diet *Daily Value (DV) Not Established	

Other Ingredients: Natural and artificial flavor, citric acid, malic acid, silica, potassium chloride, sucralose
