

SUGGESTED USE

Take 2 capsules daily (one upon rising and one at bedtime) until optimum intestinal health is achieved. One capsule before bedtime should be used as a maintenance dose. This product should be taken on an empty stomach.

Healthy Bacteria usually keep intestinal parasites at a normal level, but sometimes yeast and other fungus can grow out of control. Aerobic Life's all natural probiotic complex may help achieve a normal intestinal balance. Some people notice results in just days, but those with severe systemic imbalances may need longer, even up to a month to achieve maximum intestinal health. Once an optimum level of intestinal health is reached, one capsule daily is recommended as a maintenance dosage.
