

Take the Pure Advantage™

Tribulus Terrestris is **NOT** a hormone and works completely different from pro-hormones. Tribulus may increase testosterone through increasing luteinizing hormone (LH) in your body. LH tells your body to produce testosterone. Tribulus merely works within the body's natural limits, helping you achieve muscle and strength.*

Does not contain any dairy, egg, sugar, corn, yeast, wheat, soy, gluten, artificial colors, flavors or preservatives.
