

Glucosamine Sulfate (GS) is a sugar and nitrogen compound found in high amounts of synovial fluid and connective tissue.

Chondroitin Sulfate (CS) is a similar molecule also found in high concentrations in joints and connective tissue. Together, these two compounds offer critical building blocks for maximizing mobility to affected joints.**

- **1500mg GS/ 1200mg CS**
- **Supports Joint Mobility****
- **Assists Connective Tissue****
