

CX3 is an elite formula featuring three primary sources of the most effective creatine ingredients available in the world: Creapure® Creatine Monohydrate, Creatine MagnaPower® (Magnesium Creatine Chelate) and Creatine Pyruvate.

CX3 is not just a scientifically blend of creatine, it is packed with other powerful supportive nutrients your body requires including; Ribose, Alpha Lipoic Acid, Taurine, Cinnamon Extract, Biotin and Vitamin C.

CX3 Exclusive Proprietary Creatine Blend:

• Creapure® Creatine Monohydrate made by AlzChem GmbH is an ultrapure ingredient produced under a patent protected manufacturing process. The purity, quality, safety and effectiveness is unsurpassed allowing your body to respond to its benefits.¹

• Creatine MagnaPower® is a patented ingredient made of pure creatine bonded to pure magnesium with pure science from Albion Lab. Creatine MagnaPower® creates a higher level of absorption and has been shown to deliver 12% more free creatine to the body than a standard creatine monohydrate.¹

• Creatine Pyruvate is not a blend but a molecule combining creatine monohydrate and pyruvic acid. Studies have shown that this impressive combination of creatine enables a high concentration of cellular creatine to be absorbed and synthesized by the body for ultimate performance-enhancing effects.¹

Your body will be fueled with the major components needed for high-intensity exercise, enhanced muscle mass and strength, along with promoting lean muscle mass.¹
