***Extreme Endurance™** Clinically Proven to Reduce Lactic Acid and Improve Aerobic Threshold
Certified ISO 17025 Tested for Banned Substances by INFORMED CHOICE.

INFORMED-CHOICE uses a WADA (World Anti-Doping Agency) experienced lab and ISO 17025 accredited analytical methods to analyse for banned substances within top level sports.

***Extreme Endurance** alkalizes the acids generated by sustained physical activity and improves muscle pH balance. In addition to **alkalizing agents**, Extreme Endurance has added **Papain**, a natural anti-inflammatory that helps with muscle soreness. **Catechins** are added and are one of the most powerful antioxidants to help fight oxidative stress during exercise. **Calcium** and **Magnesium**, which meet the USFDA requirements, along with other **Electrolytes**, complete this revolutionary formula to assist athletes with the ability to quickly recover and restore balance.

Recommended Dosage

***Extreme Endurance** is designed to be used everyday, all year long. If you train 5 to 6 times per week, swallow, (do not chew) 6 tablets daily; 3 in the morning and 3 in the evening, with or without food.

Five to seven days before a race or competition increase your dosage to 8 tablets a day; 4 in the morning and 4 in the evening and continue this 8 tablets for one day after the race and then decrease dosage to 6 tablets per day. This helps immensely with recovery.
Benefits within 48-72 hours.

** The longer an athlete uses Extreme Endurance, the greater the benefit.*
